Companion Combined Pollution Program

Our new **Companion Combined Pollution Program** provides coverage primarily for *manufacturing or distribution* type risks where the GL is with an admitted market currently and may be combined with the property, autos, comp, and inland marine.

Instead of selecting an integrated GL, products pollution, and site pollution, you may choose our new **Companion Program** and select all the coverage you need without moving the GL from your current market.

We are very excited about our **Companion Combined Pollution Program!**

Program Coverage Highlights:

- Clean-Up Costs for Pre-Existing Pollution Conditions
- Bodily Injury and Property Damage for Pre-Existing Pollution Conditions
- Non-Owned Location Coverage and Blanket Non-Owned Disposal Site Coverage
- First and Third Party Transportation Pollution Liability
- Products Pollution Liability for the Insured's Products

Additional Enhancements:

- Bodily Injury includes shock and medical monitoring for physical injuries
- Clean-Up Costs includes replacement costs and recommendations of an Environmental Consultant in the absence of Environmental Law
- No exclusion for clean-up costs for asbestos or lead-based paint in soil or groundwater
- Occurrence and claims made available for certain coverages in program
- Flexible minimum premiums . . . and More!

Key Competitive Advantages:

- A+ (Superior) from A.M. Best and AA- (Very Strong) from Standard & Poor's
- Professional claims team
