

NATIONAL E & S
INSURANCE BROKERS

SPECIALTY WHOLESALE INSURANCE BROKERS

Environmental Contractors & Consultants GPL + Autos

National E&S Insurance Brokers is introducing 5 comprehensive insurance carriers specifically designed for Environmental Contractors and Consultants. These programs cover a wide range of services, offering General Liability (GL), Pollution, Professional, Auto, and Follow-Form Excess insurance for various environmental service providers. Key segments include Environmental Abatement and Remediation Contractors, handling asbestos, lead, mold, and radon remediation; Environmental Drilling Contractors for tasks like geo-probing and hydro-excavation; and Emergency Response Cleanup Contractors for chemical spills, medical waste, and soil remediation. Industrial Cleaning Contractors and Specialty Construction Contractors, such as those focused on landfill and wastewater treatment plant construction, are also covered. Additionally, Environmental Consultants specializing in air quality, ecological conservation, environmental compliance, and site assessments are eligible. This robust package aims to meet the diverse needs of environmental service providers with added options for unsupported excess liability, ensuring reliable coverage for those working on critical environmental projects.

Appetite Guide

Environmental Contractors – GL, Pollution, Professional, Auto & Follow-Form Excess:

- Environmental Abatement & Remediation Contractors – asbestos, lead, mold, radon remediation
- Environmental Drilling Contractors – geo-probing, hydro-excavation, soil sampling/vacuuuming
- Emergency Response Cleanup Contractors – soil and groundwater remediation, chemical and oil spill cleanup and medical waste
- Crime Scene & Meth Lab Cleanup
- Industrial Cleaning Contractors – hydro-blasting, grease trap cleaning, storage tanks cleaning, waste-water treatment plant cleaning including removal and transportation of de-water bio-solid waste, sludge and industrial waste services (no hauling of chemical, fuel or oil & gas wastes)
- Specialty Constructions Contractors – contractors specialized in construction of landfills, recycling centers, transfer stations, water and wastewater treatment plants
- Wetland Contractors – lakes and ponds, ecological restoration and land reclamation services
- Alternative Energy Contractors – solar, geothermal, and green energy contractors
